

This form is to be completed by the applicant to obtain permits for work that does not require a plan review provided the materials match or are equivalent to the materials being repaired or replaced. The materials and method of construction must comply with the Code and are subject to field inspection for final approval. The issuance of a permit does not grant permission to violate the requirements of the code or authorize construction on, or use of, any property in violation of deed restrictions.

Definition of Repair: The reconstruction or renewal of any part of an existing building for the purpose of its maintenance.
