

Once a building has been declared a Dangerous Building according to Chapter 10 of the City Code of Ordinances and has been required to be repaired by a Hearing Order, **the owner must make application to the Building Official for inspection** and pay the required inspection fee. After the inspection has been made, a list of corrections that must be resolved will be provided. The next step is to obtain a construction permit to make those repairs. Separate permits, fees and inspections are required to make the corrections. When all the corrections have been made and evidenced by approved inspections, a Certificate of Compliance will be issued.
