Drainage Plans Check List for Platting:

Items	
1.	Property Address
2.	Topographic map/Site Plan of existing and proposed conditions, showing drainage patterns and boundaries and all points of storm water discharge from the property.
3.	Estimate of site runoff peak flows under existing and proposed conditions for 2-year and 100-year, attention to how change in flow would affect other parcels.
4.	The Base Flood Elevation (BFE) for 100-yr and 500-yr floodplain with adjustment and the applicable FIRM panel(s) information.
5.	A map showing proposed area of cut and fills, including estimate of fill mitigation requirements, or a statement that no fill is proposed to be place below the BFE on this site.
6.	The location of the floodplain mitigation (or a statement that none is required)
7.	Minimum first floor elevation for any structures planned for the site.
8.	Calculations of required detention due to impervious/disturbed area, which is required by chapter 19 and 42 of the Code of the Ordinances and chapter 9 of Houston Public Works' Infrastructure Design Manual. And provide information about how to achieve required detention.
9.	The location of detention facilities (or a statement that no detention is required).
10.	A statement that the drainage plan is conceptual in nature and the final drainage design shall be in conformance with the latest City of Houston Infrastructure Design Manual.
11.	The signature and seal of a registered professional engineer licensed in the state of Texas.
12.	Don't include any information not related to this Drainage Plan (i.e., Stormwater Pollution Prevention PLANS, etc.)
